📍 Hyderabad

SUMMARY

Big Data Engineer committed to optimizing processes, contributing to project success. Thrives on solving complex problems, dedicated to making a lasting impact in data engineering.

EDUCATION

08/2019 - 08/2023 • **Bachelors in Computer Science and Engineering**

Lovely Professional University

GPA **7.3** / **10.0**

· I hold a degree in Computer Science and Engineering, complemented by a minor in Cybersecurity and a focused elective in Big Data. My educational background equips me with a solid foundation in building robust and secure systems, while my specialized coursework in Big Data provides me with the skills to handle and derive meaningful insights from large datasets. I am passionate about leveraging this knowledge to contribute to innovative and secure technological solutions.With a strong academic foundation and a keen interest in staying at the forefront of technological advancements, I am poised to apply my skills to real-world challenges in the dynamic field of computer science and data engineering.

EXPERIENCE

01/2023 - Present • **Data Engineer**

Mumbai

Tata Technologies

· Ad Hoc Requests: Responded swiftly to dynamic data needs, adapting to meet client requests. Aggregations and Insights: Used Pyspark, SparkSQL, and Hadoop for aggregating extensive datasets and used Presto for extracting insights.
Data Processing and Integration: Smoothly executed data uploads including full loads and incremental loads in Hive and integrating the data into ELK stack for efficient processing.
Pipeline Monitoring: Monitored end-to-end data pipelines with Airflow, proactively resolving issues for successful job completion.
Business-Driven Table Creation: Developed backend tables aligning with business requirements to ensure data accuracy.
Kafka Data Consumption: Implemented data consumption from Kafka for ETL processes, enhancing project data capabilities.
ETL Participation: Actively participated in the ETL process, ensuring seamless extraction, transformation, and loading of data.
Developer Collaboration: Worked closely with front-end and API developers to create data-driven web applications.

TECH SKILLS

PySpark　　SparkSQL　　Hadoop　　Hive　　Airflow　　Python　　SQL　　Azure　　AWS　　Databricks

Data Governance　　Data Modeling　　ETL　　Data Warehousing　　Data Security

Virtualization　　Containers　　Git　　Linux　　Networking

CERTIFICATION

CompTia Security+ SYO-601

CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and pursue an IT security career.

Fortinet Network Security Expert Level 2

The Fortinet Cybersecurity certification validates that you have mastered the technical skills and knowledge that are required for any entry-level job role in cybersecurity.

ADDITIONAL SKILLS

Vulnerability Assessment   Security Architecture   Cybersecurity Tools
